## Samenvatting

I am an professional animator and specialize in storytelling through a visual medium.  
This visual medium may be animation, but also involves comics and illustrations.

Besides being an animator, I enjoy giving workshops and spreading the knowledge of storytelling.  
I have a degree in teaching, which contributes in my interest in giving lectures, workshops and demonstrations.

I also do voluntary work as a boardmember and an artist for the MangaKissa (Europe's first public comic/manga library), in order to spread the importance of the audio-visual culture and motivate others in their desire to express themselves.

If your want to hire me, or for more information, please contact me.
